City, County Share Highway Fund

LANSING — The State Highway Commission has started distributing second quarter Motor Vehicle Highway Fund collections to Michigan counties and incorporated cities and villages. Acting State Highway Director Henrik E. Stafseth said net receipts of the Highway Fund during April, May, and June of 1967, amounted to \$55,927,146, an increase of \$1,410,322 or 2.5 percent, compared to the same period of 1966.

All state gasoline and diesel fuel taxes and license plate fees go to the Motor Vehicle Highway Fund.

After deduction of collection costs and the Waterways Commission's share, the money is distributed under provisions of state law which provide that 47 percent goes to the State Highway Commission for use on state highways, 35 percent to the State's 83 counties for use on county roads, and 18 percent to the 523 incorporated cities and villages for their roads and streets.

Under this formula, the Highway Department will receive \$26,285,759 as its share of the second quarter collections, while the counties will receive \$19,574,501 and the incorporated cities and villages will get \$10,066,886.

Crawford County's share amounts to \$71,926 while the City of Grayling will receive \$4,432.

"Zoning"

By Willard Bosserman
County Extension
Natural Resource Agent

No word stirs the emotion more than the word zoning. Yet zoning is only a tool to achieve community goals. Lewis Wolfanger, retired zoning expert from M.S.U. likened zoning to planning a house. In a house areas are set aside for bedrooms. Another area is planned for a living room which is usually the room for receiving guests. Most modern homes have a utility room which is generally in an area of the house where visitors are not shown. The utility room is an essential part of the house but is screened from the more pleasant living room.

Planning a community is quite similar. Residential zones planned almost exclusively for homes. People buying a lot to build a house know that their investment will be protected from businesses and industry. Likewise people looking for a site for an industry look for an area which is zoned for industry. Too often homes invade an industrial area then the home owners begin to protest the presence of industry.

The city of Grayling and Grayling township have gone through the initial planning stage and have adopted a zoning ordinance so that the plan will be effective. Gerrish and Higgins Township and Village of Roscommon have just completed a comprehensive plan, which citizens will become familiar with in the near future.

One reason for planning is so public utilities can be put to use more readily. One suggestion by the Houghton Lake Regional Planning Commission calls for groupings of businesses with some residential district in close proximity so that there is enough concentration of users to make the installation of sewers more practicable.

These groups of centers are already present. A plan implemented by an ordinance encourages building of homes and commercial in these designated areas so they can be more conveniently served with utilities. The Houghton Lake Regional Planning Commission is looking at a plan which would consider two rather large primary service areas. These would be an area around Prudenville and one around the Heights area but expanding about three miles east of and west of the Heights. Others believe the area from the interchange between 55 and 27 to a point north of Prudenville should be one community. What ever the final decision, it will only succeed if it is implemented by a protective code.

ONE CAP MEETS

A OneCap Youth Committee met August 14th at the Kathy White home, 708 Ionia St. Wilma Case called the meeting to order and reported on projects the Committee is now working on. "A supervised Swimming Program" and "A Youth Coffee House". Another Youth Committee meeting is scheduled for Sept. 18th at

Library Receives Grant for Reference Books

Librarian Mrs. Harry Souders reports that the Crawford County Library has received word from Geneva M. Casey, Michigan State Librarian, that the MacGregor Foundation has made available \$51,545 for basic reference books for all Michigan libraries serving 3,000 to 5,000 persons.

Librarian Mrs. Souders made application to receive a part of this for the local library and has been notified that the application has been approved, and the Crawford County Library has been granted approximately \$660 from the Education fund for the first year of the three-year grant. Because of this grant the library will receive approximately another \$100 from the Grand Traverse program also.

Mrs. Jeanne Thomas of the Michigan State Library and Bernard Oppenier visited with Mrs. Souders Tuesday of last week in reference to purchasing reference titles.

Bowlers Wanted

The local Legion Lanes are now accepting applications from those interested bowlers who will be unable to bowl on either Tuesday or Thursday nights of the coming bowling season, but still desire to bowl in sanctioned league competition.

We feel that there are enough good bowlers in our immediate area who are unable to bowl in our regular leagues, either because of work schedules or any number of other reasons, so that we fully intend to accommodate these bowlers with a league schedule that will fit their needs.

Leave your name at the alleys and you'll be contacted personally in the very near future about an organizational meeting. Harold Long

Crawford County Recreational Activities

This is "Canoeing Time" in Crawford County. Our miles of canoeing water on the Upper Manistee River, the AuSable Main Stream, South Branch, and North Branch are normal, clear, and clean. Insects are at a minimum, and hours or days can be spent exploring the "Canoeing Trails" of our county. Picnic grounds and camping sites are numerous along the banks of our rivers, and there is, for the patient canoeists, a wonderful opportunity to view the wildlife and birdlife of our region.

Fair trout fishing still exists on all streams. Quality fishing sections of the AuSable Main Stream, South Branch, and North Branch have been giving fair catches to fishermen using Midge, Skunk, and Grasshopper during the day. Evening activity is good for fishermen using very small yellow stone flies. Bait fishing continues good on the Upper Manistee River. Pan fishing is fair on all area lakes. Excellent campgrounds can be found in all areas of the county. Maps showing location of all camping sites are available at

Little Leaguers End Play; One Makeup Game Yet

By Harry Miller

With Jim Skolasky pitching his first game for Sorensons and Jim McClain on the rubber for the Moose, the Moose snorted and scored 4 runs in 3 innings. Sorensons came back and drilled the Moose for 6 runs in the 4th inning. The Moose-tamer, Chris Golnick, came on the hill and choked the Moose, winning 6 to 4.

The second game was a cliff hanger, a heart-pounding and ulcer-giving game. The Moose nipped Tom Vajda for 2 runs in the 1st inning. Tom started his first game, was relieved by Bill Horning who struck out 12. Red Weaver hurled the Moose to what appeared to be victory,

Bid Openings Set For Oct. 23rd

Architectural drawings for the new County Building for Crawford County are nearing completion. Final date for the specifications is September 29th.

Olin Williamson, chairman of the Building Authority, reports that the drawings will be given to bidders on October 2nd, and bid openings are set for October 23rd.

Contracts will be awarded on November 1st, and target date for completion of the new building is November 1st, 1968.

Estimated construction cost is \$650,000 or 2 1/2 mills.

The new county building will be situated at the foot of Michigan Avenue, with the AuSable river flowing at the side and rear of the structure.

The building will contain 25,400 square feet as compared to 10,312 in the present courthouse. Besides housing the present offices, the new Courthouse will have rooms for the Health Department, County Superintendent of Schools, County Agent and Draft Board, all of whom do not have office space at the present.

Also, all the jail facilities will be under one roof, including living quarters, office space and the jail itself.

The first raised portion in the photo will be the court rooms. The very top contains housing for the air conditioning units for the entire building.

The drawing of the proposed new County Building is a view as seen from the roof of the Chief Shoppengons Motor Hotel.

The law firm of Miller, Canfield, Paddock and Stone of Detroit is developing the bonding program to finance the new structure.

In 1965, the County Building Authority was formed. Besides Chairman Williamson, others on the board include: Glen Nolan, Lake Margrethe, Secretary; Harvey Rowland, Grayling Township, Treasurer; Arthur Howse, Maple Forest Township, and Robert Shook, Beaver Creek Township.

The Authority retained the architectural-engineering firm of Harley, Ellington, Cowan and Stinton, Inc., of Detroit for the preliminary survey and the final specifications for the proposed new County Building.

At present work has started on the crossing at the railroad tracks at the foot of Michigan Avenue for the access to the new building. Another road is planned running parallel to the tracks with entrance off Lake Street (M-72).

Packaging Law Gives Consumer More Protection
Consumers who bother to read the labels now will learn more about the package contents.

The Fair Packaging and Labeling Act of 1966 went into effect on July 1. The law requires packages and labels of commodities in interstate commerce to be honestly and informatively labeled. The law requires that the label:

— Give net quantity per serving, if the number of serving is stated.

— Be free of such terms as "giant quart" and "jumbo pound".

— Contain a statement in a uniform location of net contents in appropriate units for the commodity, such as weight, liquid measure or numerical count. Contents of the package under four pounds or one gallon generally must be stated in pounds (pints and quarts) as well as in total number of ounces.

— Identify the commodity and give the name and place of business of the manufacturer, packer or distributor.

The home economist explained that the law authorizes the government to establish additional regulations for specific products if necessary. This would be to prevent deception or to make value comparison easier. The government is authorized to:

— Establish and define standards for describing package size, if additional descriptive phrases are used to supplement label statement of net contents.

— Regulate bargain-price labeling, such as "cents off".

— Require labels (except for food) to give the common name of the product and list ingredients in order of decreasing amounts.

— Prohibit packaging of products in containers with unnecessary packing material or air space.

The Fair Packaging and Labeling Act doesn't apply to certain drugs or tobacco, meat and poultry products, or products

Minute To Guardsmen

In the aftermath of rioting and civil disorder, it seems to be knocking the country's National Guardsmen — civilian weekend warriors who are called to our defense when the going gets rough.

Commentators and government officials have called for more riot-control training. Some have said guardsmen don't get such training. These are mistakes, as are those which say the guardsmen don't know how to fight snipers. They are called back with fire and if anyone knows a better way, he should say so.

Some have said the guardsmen, youths in their teens and early 20s, were "scared" when they went into the riot area. Is there any combat soldier isn't a little scared as he goes into battle? This country is in sad shape when its young men in National Guard uniforms are criticized for not prompt and immediate action in riots as ordered by civilian authority.

National guardsmen are the ones the snipers shoot at when they are called from their pursuits to re-establish law and order. In like manner, guardsmen fought for the freedom of this country in the Revolutionary War and have fought every war since except Vietnam.

It is time to stop second-guessing and to salute the guardsman for its outstanding service to the nation.

The Tucker Toy Manufacturing Co., Grayling's new industry, located in the former Johnson Furniture Store building, is a hive of industry. Two shifts of woman workers are engaged and at present there is a force of about 20 employed. William Tucker is the manager. He and Mrs. Tucker are occupying the Mrs. Carl P. Mickelson cottage at Lake Margrethe. Tucker's mother is also a member of the family circle. So far the plant has been engaged in manufacturing parts for the making of what is named JoJo The Wonder Clown. By the simple pressure of one hand, JoJo is made to perform many clever trapeze tricks. The toy is made strong and sturdy and is destined to outwear even the most destructive child. The toys are shipped through a distributor in Detroit, where it is reported, orders are piling up rapidly. The Tucker Toy Manufacturing Co. is Grayling's newest industry and we trust, may become one of our most important ones.

To conserve mileage on the buses, the students will not meet until Wednesday, September 6, at 9 a.m. city time. At this time students will enroll, receive their books and attend the first classes of the year. The wartime staff of 17 instead of 21 teachers will be listed next week along with information concerning student workbooks and other supplies. It has been impossible to complete "old-time" definite plans and projects, but Oscar Goss and Bill Heric have put the school building in fine shape for the new year. Four more rooms have been painted and three more floors have been sanded and varnished, along with all the usual cleaning, repairing, painting and varnishing. Much credit is due the Grayling Board of Education for the foresight and planning by which they are able to provide the best possible program for the boys and girls of this community.

LETTERS TO THE EDITOR

August 14, 1967

Editor
Crawford County Avalanche
Michigan Avenue
Grayling, Michigan

Dear Sir:

During the evening of July 29th, in preparing to do some late evening fishing on the South Branch of the AuSable near Smith's Bridge, I fell and broke my left leg.

As I was across the river and realizing I could never get back without help, a call was placed to the Crawford County Sheriff's Department. An ambulance with Deputies Bob Ruddy and John Galloway arrived in the minimum of time from Grayling.

Working in the semi-darkness under difficult conditions, including wading the river and obtaining a canoe from Canoe Harbour to float me down river, the Deputies were able to get me across the river to the ambulance, and on to Mercy Hospital, where I received excellent treatment in the care of Dr. Blaha and the personnel of the hospital.

The response to our call for help was very prompt and I cannot praise too highly the help given me by Deputies Ruddy and

Galloway. The people of Grayling and vicinity are very fortunate to have such excellent service available to them.

Yours truly,
Eugene F. McDowell

Just bring your own tableware and a dish to pass. Chairman Marv Forbes has put a lot of work into it, so it should be a fine picnic. Other details are available at the Lodge.

Members planning on attending the U.P. convention should make reservations now, if you haven't already done so.

Women of the Moose The W.O.T.M. held their regular meeting Monday night. Marvin Forbes asked for volunteers to help serve dinner at the picnic Sunday.

We were sorry to hear Assistant Guide Frances Barclay's daughter is in Mercy Hospital. We all hope she is better soon. Much business was transacted. The next meeting will be Sept. 11th. We hope to have a big turnout. Girls are your dues paid to date. Git in the mood and come to meeting.

Kenneth Jackson of Lovells, Buried Monday

Kenneth B. Jackson passed away at Grayling Mercy Hospital August 18, 1967.

Jackson was born to the late Alice and Fred Jackson on November 17, 1902 in St. Johns. He attended college at Eastern Michigan University, Ypsilanti and the University of Michigan at Ann Arbor, earning his baccalaureate and masters degree from Wayne State University. He was a member of Phi Beta Kappa, and was active in many areas of industrial education in Detroit Public Schools and Michigan.

After many successful years as an industrial education teacher and vocational educational department head, he retired to the home he built on the North Branch of the AuSable in Lovells. He spent the last two winters in Arizona and the summer months among friends in Lovells.

Surviving are his wife Velma, a sister Laura Merrill of Chicago, a daughter Patricia Estermyer of Belleville, a stepson, Wayne Sipes of Detroit, stepdaughter Rebecca Bayham of Frederic, stepson Richard Whaley in Vietnam, fourteen grandchildren, a niece Sally Swiskow of New York, and several cousins.

Funeral services were held at the Osgood Funeral Home, St. Johns on August 21, 1967, with the Reverend Jack Barlow officiating. Serving as pallbearers were Ed Williams, Franklin Branch, Rodney Branch, Charles Shoemaker, Jack Branch and Norman Dawson.

Summer Resident Succumbs Aug. 17th

Dr. Robert S. Breakey, retired Lansing physician and surgeon, died August 17, 1967 at his residence, 520 Westmoreland Avenue. He was 69. A former vice-chief of staff at Sparrow Hospital and former chief of urology at Sparrow and St. Lawrence hospitals, Dr. Breakey is survived by his wife, Judith, a son, Dr. Barry Breakey of Ann Arbor, a daughter, Mrs. Patricia Cody of Ann Arbor, a brother, John of Ramsey, N.J., two sisters, Mrs. Max Graves of Detroit and Mrs. Charles Miller of New Baltimore, and eight grandchildren.

The doctor had been ill for several months, which kept him from coming to his summer home on the North Branch for the first time in 27 years. Dr. and Mrs. Breakey have been associate members of the AuSable Property Owners Association since its organization, and their children are active members, so the Breakey Camp will continue to be the scene of many happy occasions as it has been for so long.

Graveside services were held on August 18th at Evergreen Cemetery in Detroit. The family has established a memorial fund through the Ingham County Medical Society.

The first summer recreation program to be sponsored by the Crawford County schools came to a close Thursday with closing day highlights being a Tennis Tournament among the various students who took part in the tennis program this year. In the Junior Girls Division, Mary Ann Kaiser won over Yvonne Douglas by default. In the Senior Girls, Marcia Kaiser won over Sheryl Bourle. The Junior Boys' tournaments found Burt Kaiser winning 6-0, 6-0 over John Tobin. A very exciting match in the Senior Boys found

Duane Halstead 5-7, 7-5, 6-1 over Jack Skolasky. Under the very capable instruction of LeRoy Christian, many Grayling-area students became quite proficient at the game of tennis this summer. Every day that the weather permitted found the tennis courts a beehive of activity as students practiced their individual game. Almost every evening found a large crowd of young people playing tennis on the courts.

Plant Lawn Grass Now

By Willard Bosserman
County Extension
Natural Resource Agent

August 15 through September 15 is the best time to seed new lawns or reseed those bare spots in old lawns. This is the time nature replants grass seed. Generally it is just before the fall rainy season. This does not always hold true but is generally true.

In the spring we plant grass during a wet season. Just when rain is needed for grass growth it usually quits raining. Fall seeded grass gets established and is ready to take advantage of the wet spring time for additional growth.

Grass planted between September 15 and October 1 will probably get started but does not have the advantage of earlier planted grass.

If you wait until after October 1, cold weather just does not allow the grass to get mature enough before cold, freeze weather sets in.

The county Extension office, County Building Roscommon has publications on lawn growing that are available without charge. The publications are "Making a New Lawn", "Care of an Established Lawn", and "Lawn Weed Control".
